

Exhibit 83

OKAY Clyde, we will hold off.

I had the impression from Steve McAdams that because he knew you and that it was DFW, that it would not be a big deal. In fact I thought all he wanted was the phone call.

Best regards,

mark

I hope you and John also had wonderful holidays.

I called Steve McAdams to ask about BCDC's requirement that I have to get a BCDC consistency determination before I put any Refuge signs on Refuge property that is within BCDC jurisdiction. He confirmed what he told you. It is their position that I have to get their permission before I can post signs. I will have to check into this further. In the mean time, I have to ask you to not install the signs.

Clyde Morris

	Subject: Greco Island

Hello Clyde, I hope you had a great holiday.

John and I have finished all of the "Wildlife Refuge" signs, signposts, and predator bird foils to place around Greco Island, and we brought around a shallow-draft boat with which to install them this weekend. But last Thursday at a meeting with BCDC the issue popped up, and Steve McAdams said that we need a BCDC permit before we can proceed.

I instantly had visions of another new career--but he said that he knew you

well, and if you would give him a telephone call it could be worked out.
You in turn can commission John and me to do the work.

Thanks and best regards,

mark
